HELLO FRIEND

Photography is my passion, which has inspired and accompanied me for years and which I have turned from a hobby into my profession. I inherited this love from my dad, who showed me the world through his lens. What I particularly appreciate about my work is the variety and diversity in which I capture the uniqueness, beauty and aesthetics that make every moment so special.

With creativity, professionalism, and dedication, I accompany you throughout your day and document it in an authentic way.

Wedding photography is about more than beautiful pictures – it's about being part of a truly meaningful moment. My guiding principle **'To be part of something beautiful'** reflects exactly that: capturing the love, the atmosphere, and the genuine emotions within my photographs."

HOW I SHOOT WEDDINGS

My approach is discreet and documentary – I don't interfere with your day but quietly accompany you in the background. In doing so, I capture moments as they truly happen – full of emotion, closeness, and authenticity. It's important to me that you don't feel forced into stiff poses or lined up next to each other just for the sake of a picture. Instead, I focus on the atmosphere between you: the small gestures, the glances, the laughter, and the natural touches that arise on their own.

I also have a love for the details that often go unnoticed – the hands reaching for each other, the tears in the background, the little things that make your day unique. This is how a visual story unfolds that shows you just the way you are.

THE EXPERIENCE

ONE

HAIR AND MAKEUP

While you get ready with hair and makeup, I'll capture the important details such as your dress, accessories, and the atmosphere of the morning. This ensures a relaxed start and beautiful memories of the preparation.

TWO

BRIDAL SESSION

Before the ceremony, we'll take a short time for your bridal portraits. Simple, natural, and timeless images that reflect your look and the excitement of the day.

THREE

AFTER CEREMONY SESSION

After the ceremony, we'll focus on portraits of you as a couple. This is the perfect time to capture the two of you together in a calm setting, away from the rush of the day.
